

# Alice Pouillot

Master's student interested in theoretical approaches to the evolution of social behaviour.

✉ [alice.pouillot@ens-lyon.fr](mailto:alice.pouillot@ens-lyon.fr)

☎ +33 6 47 490 64 98

📍 France

## Referents

Patrick Kennedy – lecturer

[patrick.kennedy@bristol.ac.uk](mailto:patrick.kennedy@bristol.ac.uk), master's internship supervisor

Perrine Cruaud - lecturer

[perrine.cruaud@univ-lyon1.fr](mailto:perrine.cruaud@univ-lyon1.fr), bachelor internship supervisor

## Languages

English – C2

German – B2

French – Native

## Programming languages

MATLAB

Python

R

## Links to previous work

M1 internship:

[GitHub repository](#)

## Personal interests

Music

Violin (2009 – )

Student orchestra

Literature

French lit., 19<sup>th</sup> and 20<sup>th</sup> centuries

## Research experience

### Master 1 internship: evolutionary game theory and evolution of social behaviour

Feb. 2025 – May 2025 (4 months), Social Strategy Lab (supervised by Patrick Kennedy), University of Bristol, UK

*Brinkmanship in biology and how to prevail: a general model*, report under article format, lab presentation

Adapting nuclear strategy games for animal conflict, analyzing them with game theory methods, agent-based modeling in MATLAB

Article in progress

### Bachelor 3 internship: microbial freshwater ecology

May 2024 – June 2024 (7 weeks), LEHNA (supervised by Perrine Cruaud), University of Bristol, Université Lyon 1, France

*Study of bacterial diversity and community structure across microhabitats in two freshwater lotic ecosystems*, report under article format, lab presentation

Field work (planning and realization), DNA extraction, automated ribosomal intergenic spacer analysis, data analysis in R (PCA, statistics)

## Education

### Master 2, Biology and modeling

Sept. 2025 (to come), École Normale Supérieure de Lyon

Modeling of social systems, fundamentals of computer science, complex networks

Trends in ecological research (ecology seminar)

Writing a review

### Master 1, Biology

Sept. 2024 – Jan. 2025, École Normale Supérieure de Lyon

Evolutionary genetics, evo-devo, ecology, physiology, history of life

Epistemology (optional course)

### Bachelor 3, Biology

Sept. 2023 – May 2024, École Normale Supérieure de Lyon

Ecology, evolution, programming, modeling

Three sessions of two weeks practicals: ecology, functional genetics, fundamentals of experimental biology (microbiology, genetics, virology, cellular & molecular biology)

### ENS admission – Preparatory class

Sept. 2021 – June 2023, Carnot high school, Dijon

18/809 in the admission exam

Bachelor 1 and 2: mathematics, biology, computer science, geology, physics, chemistry

Short research project (TIPE): *Diatoms communities facing urban pollution: the case of zinc*
